NICOLAS NOGUEIRA

Framingham, MA | (508) 361-8847 | nnogueira2@students.stonehill.edu | Portfolio | GitHub | LinkedIn

EDUCATION

Stonehill College — Easton, MA ***Expected Graduation: May 2027***

B.S. in Computer Science | Minor: Business Administration & Data Analytics

Awards: Dean's List (Spring 2026) | Hispanic Scholarship Fund | Ronald E. Burton Scholarship | Yawkey Endowed Scholarship

TECHNICAL SKILLS

Programming: Python, R, SQL, Java, JavaScript, **Data Science & ML:** Pandas, NumPy, Scikit-learn, Matplotlib, Statistical Modeling, SQL, **Data, Visualization:** Tableau, Excel, Vega-Lite, PowerBI, **Tools:** Git, GitHub

PROJECTS

Premier League Table Prediction Model

Python, Pandas, NumPy, Scikit-learn, Matplotlib

- Trained a Random Forest Classifier on 10 seasons (2014–2024) of historical Premier League data spanning 220 team-season records to predict final 2024/25 league standings
- Engineered early-season features by proportionally scaling season-end statistics (points per match, goal differential, wins, losses); resolved missing expected-goals data and inconsistent team-name formatting across data sources
- Correctly predicted the league champion and all three relegated teams, achieving a mean absolute error of 4.8 positions and 25% exact-position accuracy across 20 teams
- Built Matplotlib visualizations comparing predicted vs. actual standings to communicate model performance and error patterns

Blackjack Card-Counting Simulator (Counting-BJ)

Python, Matplotlib, pytest

- Built a 6-deck (312-card) Blackjack simulation comparing a Hi-Lo card-counting agent against a random-play baseline across 100 rounds
- Implemented true-count-based bet scaling and a basic-strategy decision engine; validated game logic with pytest unit tests
- Visualized bankroll trajectories with Matplotlib to quantify the statistical edge of counting-based strategy over random play

Professor Salary vs. Student Rating Analysis

R

- Analyzed 175 matched faculty payroll and Rate My Professors records, running Pearson correlation and least-squares regression with residual analysis and a slope hypothesis test ($r = -0.074$, $p = 0.328$)
- Found no statistically significant relationship, demonstrating rigorous application of hypothesis testing to a real-world dataset

EXPERIENCE

Bflexion — IT & Security Intern ***June 2026 – August 2026***

- Researched multi-tenant architecture solutions and produced comparison tables and evaluation reports on 5+ vendor options, presenting via 1 live demo and 8–10 internal demos to support upper management decisions
- Built an AI-driven threat analysis agent using Copilot Studio workflows and prompt engineering, pulling from 5 company-provided sources to generate reports and score threat levels
- Conducted email spam analysis to identify and flag malicious or suspicious messages, supporting the security team's threat-detection efforts

Waters Corporation — IT / End User Services Intern, Milford, MA ***June 2025 – August 2025***

- Tracked and documented IT incidents and service requests across enterprise ticketing systems, identifying recurring issues to improve resolution workflows
- Supported IT infrastructure projects, including access management, user provisioning, and system configuration, for a global scientific instruments company

LEADERSHIP

Club Soccer Captain — Stonehill College ***August 2024 – Present***

- Lead a 25+ player roster, coordinating league scheduling with NEPL officials and committing 20+ hours weekly to training, competition, and team strategy

Learning Assistant, CS 102 & CS 103 — Stonehill College ***September 2026 – Present***

- Hold weekly office hours supporting students across 3 course sections, debugging code and reinforcing core programming concepts alongside faculty

Treasurer — Brasa (Stonehill's Brazilian Student Association) ***September 2026 – Present***

- Manage the club's budget and coordinate logistics and financial planning for cultural events and programming

Ron Burton Training Village — Chief & Huddle Leader, Hubbardston, MA ***June 2021 – July 2023***

- Progressed from Huddle Leader to Chief, mentoring up to 12 participants and leading 6 Huddle Leaders
